ACTIVITY AREAS

(All materials provided)

“ON THE SPOT” FIRST AID/HEALTHCARE CAREERS

Learn all about great careers in healthcare from professionals as well as experiencing lifelike emergency scenarios. Be ready to have fun while learning life-saving hands-on First-Aid techniques!

Guitar Hero Rock Concert!

Lights, sound, key music and draw the curtain...Want to know how to put on a rock concert? This session will have campers perform with the ever popular Guitar Hero in a live show setting with lights and a rocking' PA system and of course ...filling the stage with the fog machine! Find out what it is like to put on a concert and perform on stage!"

LET'S GET COOKING!

The best thing about cooking is that you can be creative and share what you make. This program is an introduction to basic cooking skills and techniques to make nutritious snacks. Come join the fun while learning about the world of healthy cooking. Campers love this program!

MAGICIANS IN MANUFACTURING

It's Magic! Well not really. It's modern manufacturing but it works like magic. In a single day, campers will invent, design, develop and produce a consumer product using state of the art computer and manufacturing equipment as well as a lot of ingenuity. Campers will walk away with something they designed in their hands and a better understanding of the manufacturing industry in their head. **New finished product!**

DESKTOP PUBLISHING

You will learn how to write and design a story complete with pictures and photos of your choice. The class will also create a "Summer Tech Camp Week Book" which will include bios and pictures of all the campers.

3D ABSTRACTION

Your EYE'S will take professional photographs of patterns, shapes, unrecognizable objects, reflections, nature and your friends. Transform multiple 2D images into 3D with layers of cool filters and effects using Adobe Photoshop CS4 Extended. Bring home that professional print in a frame. Have FUN & show off the *awesome skills* you learned in 2010 Tech Camp **(New this year)**

LEARN TO COMMUNICATE WITHOUT SPEAKING

A basic class in American Sign Language (ASL). Learn some basic conversations in ASL and come away with knowledge of how to communicate your name, where you live, your age and what some of your favorite things are, such as colors, food, pets, and sports. You'll also receive a brief history of ASL and the Deaf Culture.

THE REMARKABLE RACE

If you have ever seen the show "**The Amazing Race**" then this is the "Summer Tech Camp version"! Teams of students will work together to complete identical challenges within a set time period. Challenges are a combination of problem-solving activities, puzzles, scavenger hunts and tugs-of-war!

(new this year)

WEB PAGE DESIGN

Learn to design a basic home page that can be uploaded to the internet and take home a c.d. with your creation!

CAREER AWARENESS & EXPLORATION

Explore exciting career opportunities through hands-on presentations by Professionals who share details of their careers and Vermont Student Assistance advisors show you how to research anything you might like to explore!
